

The path of 262P/McNaught-Russell starting on 8 Aug 1994

This star chart illustrates the trajectory of comet 262P/McNaught-Russell across the northern sky from August 1994 to January 1995. The comet's path is marked by a thick black line with yellow circular markers indicating its position on specific dates. The chart includes a grid of Right Ascension (RA) and Declination (Dec) coordinates, as well as a yellow line representing the ecliptic plane. Various constellations are labeled, and numerous stars, galaxies, and nebulae are identified. A legend at the bottom provides a key for the symbols used to denote different celestial objects.

Legend:

- Galaxy
- Bright nebula
- Open cluster
- Globular cluster
- Planetary nebula

Comet Path Data:

Date	Mag
1994 Aug 28	12.1
1994 Sep 1	11.9
1994 Sep 16	11.1
1994 Oct 6	10.1
1994 Nov 1	9.3
1994 Dec 25	11.1
1995 Jan 1	11.5
1995 Jan 11	12.1
1995 Jan 29	13.2
