

This astronomical chart displays a section of the sky, spanning from 5h to 6h Right Ascension and 0h to 23h Declination. The chart is overlaid with a grid of Right Ascension (RA) and Declination (Dec) lines. Various constellations are labeled, including Perseus, Andromeda, Cygnus, Sagittarius, and many others. A series of numbered points (1-28) are connected by lines, indicating a specific path or sequence of observations. Key stars like Vega, Arcturus, and Sirius are marked. The chart is titled '1 Jan 2049'.

Magnitude scale:    • 5.0    • 4.0    • 3.0    • 2.0    • 1.0    • 0.0    • -1.0    • -2.0

 Galaxy
  Bright nebula
  Open cluster
  Globular cluster
  Planetary nebula
